

Subject: OCEANS 2026 Monterey: Regular Paper and SPC Tracks - Registration and Poster Instructions

Date: Tuesday, August 18, 2026 at 7:45:43 PM Pacific Daylight Time

From: controls@papercept.net

To: Duane Edgington

Dear Regular Paper and SPC Track Authors and Co-Authors,

This note covers registration and poster instructions for the Regular Paper track (with poster presentation) and the SPC track.

1. Registration requires your Submission ID, and you also need to complete the full registration process in PaperCept, including the copyright transfer and uploading your final paper.
2. There is no extension available for this step, as we need to move forward with building the final program.
3. Full registration payment is required in all cases, even if you are a student. Only one full registration is required to cover the paper. Each full registration can cover up to 2 papers, with more available for an extra fee.
4. If a co-author is covering registration and receiving the registration codes, other co-authors are welcome to register as attendees (student or otherwise) and still present the work at the poster session.
5. Note that student registration does not include all social events.

Poster templates and format

The poster templates are available in this shared Drive folder:

https://drive.google.com/drive/folders/16MkCz5TKh6E4IHThTtjvMsSvJDeIdyrw?usp=drive_link

Two sizes are provided:

- (1) 72" wide x 48" tall (maximum size, preferred!)
- (2) 48" wide x 36" tall (minimum size)

Any size in between is also acceptable. Simply adjust one of the templates to your preferred dimensions.

You are welcome to modify the design as you see fit, including fonts, colors, background, images, and frames. The only requirement is that the logos and poster type marker (Regular Paper or SPC, as applicable) remain in the top right corner as provided. You are also not limited to PowerPoint; feel free to use whatever software you are most comfortable with.

We have also included examples from previous years' posters, in case you would like a sense of what has worked well:

<https://monterey26.oceansconference.org/past-poster-examples/>

Please let us know if you have any questions.

Best regards,

Giancarlo Troni
